Military & Law Enforcement

WHEN OPERATIONAL READINESS MATTERS MOST

PROUDLY MADE

IN THE U.S.A

Storage is more than just a solution.

Whether a member of law enforcement, tactical response, or armed forces, Datum's line of heavy-duty steel weapon racks and gear storage products offer the customizable, secure storage, you need when readiness and efficiency matter most.

Family-owned since 1968, Datum's products are manufactured in the United States and proven in the field to stand up to even the toughest wear and tear. Every product is backed by Datum's exclusive Lifetime Warranty - the best in the industry.

Legacy Weapon Racks

Customizable storage for weapons, ammunition, and tactical gear

Heavy Duty Construction

Constructed of high-gauge, fully welded steel, Datum's weapon racks are durable and include enhanced security features, including reinforced doors with full-length piano-hinged and complete extension lock bars.

Adjustable Components

An extensive selection of adjustable brackets, shelves, bases, and mounts offers the flexibility to store rifles, shotguns, pistols, ammunition, and tactical gear.

Locking Options

Weapon racks feature 5 or 7 point locking mechanisms secured with a key lock or padlock hasps. All variations meet U.S. Military Standards.

Multiple Sizes

Standard racks come assembled at 21" or 42" widths and heights ranging from 24" to 84" to meet specific weapon storage needs.

Single and Double Hinged Door

Datum's Hinged Door Weapon Rack is designed to securely store weapons, gear, and other tactical equipment. Traditional hinged doors allow full access to stored weapons and full use of available space in the interior of the cabinet.

FEATURES:

- National Tactical Officers Association recommended
- 3-point lock (single), 5-point lock (double)
- Keyed lock or hasp for customer supplied padlock
- Various locking options
- Leveling glides included to adjust alignment in the field
- Internal lock bars on doors reduce interference with stored weapons
- NSN, GSA, and state contracts
- Customize for varying storage needs

Bi-Fold Door

Datum's Bi-Fold Door Weapon Rack is designed to securely store weapons, gear, and other tactical equipment. Doors fully recede into the cabinet to allow free movement around the cabinet and meet U.S. Military security standards.

FEATURES:

- National Tactical Officers Association recommended
- 7-point lock (double door)
- Hasp for customer supplied padlock
- Leveling glides included to adjust alignment in field
- Internal lock bars on doors reduce interference with stored weapons
- NSN, GSA, and state contracts
- Customize for varying storage needs

Open Weapon Rack

Datum's Open Weapon Rack is designed to store a variety of weapons, gear, and tactical equipment in a secure room environment. Open weapon racks also include a mobile option that allows for easy movement between armory and training rooms.

FEATURES:

- Configurable to accommodate a wide variety of weapons
- Constructed of 16- and 18-gauge welded steel
- 1" vertical centers
- Modular component mounting system
- Secure to a wall, back to back, and side to side
- Includes base and leveling glides
- Back panels have component security screw holes
- Store long guns, rifles, handguns, ammunition, helmets, tripods, backpacks, tasers, and optics
- Powder-coated finish available in all standard Datum colors
- Compatible with MobileTrak® high-density storage systems
- Mobile option for easy movement

POLICE

Generation II Weapon Rack - G2

Military-grade storage for weapons, ammunition, and tactical gear

The newest addition to Datum's line of weapon storage products, the G2 is constructed of 16 gauge fully welded steel and features a newly designed back panel with a shelf weight capacity of 300 lbs. The panel runs the weapon rack's full length to support a wide range of durable 14 gauge steel components.

In addition to the rack's strength, the new G2 is designed to provide maximum flexibility for weapon inventory. A newly designed modular base easily accommodates rifles and crew-served weapons and offers additional stability. Other new features include a sling retention component to prevent snags during weapon retrieval and bi-fold doors that do not recess into the cabinet to increase the weapon rack's storage capacity. A hinged-door option is also available.

FEATURES:

- All standard racks are 36" or 42" W x 15" D x various heights
- Constructed of 16 gauge fully-welded steel
- Components constructed of 14 gauge steel
- Leveling glides included to adjust door alignment in the field
- Back panels feature component security screw holes
- 7 locking points bi-fold, 6 locking point hinged door and hasp for user-supplied padlock
- Internal lock bars on doors to reduce interference with stored weapons
- Perforated doors allow for visual inventory and ventilation
- Racks can be bolted to wall studs, side to side, or stacked
- Compatible with Datum MobileTrak systems
- Finishing available in 15 standard powder coat colors

Personal Storage and Maintenance

Secure, customizable storage and workspaces for weapons and gear

Personal Pistol Locker

Datum's Pistol Locker is designed for the secure storage of pistols and other personal items and gear.

FEATURES:

- Available in single, 4, or 6 tier versions
- Key, enhanced key, hasp, or digital lock
- Wall mount or mount under desk
- Mounting lances in the rear offer compatibility with Datum weapon racks and lockers
- Tiers are keyed separately
- Woven mat to protect stored weapon and other items

Armorer's Bench

Datum's Armorer's Bench is designed for weapon repair and maintenance. The bench features heavy-duty steel construction and is compatible with Datum's line of weapon racks.

FEATURES:

- Fully welded heavy-duty 14-gauge framing with 11-gauge reinforcements and supports
- Solid steel worksurface supports
- 1-inch adjustable heights for back panel components
- Adjustable leveling glides
- Powder-coated, stainless steel, or butcher block worksurfaces
- Shelves, rifle shotgun racks, pistol cradles, tool, and parts bins, liquid storage shelves

GearStor Lockers

Datum's GearStor lockers are a practical solution for personnel who need to secure and store uniforms, equipment, go bags, personal items, and more. Lockers can be equipped with a garment rod, full and partial shelves, and hooks. Optional components such as accessory panels, security boxes, and boot trays are available.

FEATURES:

- 18-gauge welded steel frame
- Solid, louvered, or ventilated doors
- 1-inch slotted uprights
- Continuous piano hinges
- 3-point lock Leveling glides
- Powder-coated finish available in multiple colors
- Optional accessory panel supports
- Compatible with Datum Weapon Rack components

Fully Welded TA-50 Equipment Lockers also available
