

# Personal Storage Locker

## INTRODUCTION/DESCRIPTION

The 4Post™ Storage Locker are an inexpensive choice for personal locker storage. The units are built to accommodate 4Post™ accessories, and can come preconfigured as starter and adder units (PLOC1 and PLOC1-A) to include garment rods, storage shelves with grommets, louvered locking drawer, louvered lockable hinged door (padlock), and J hook accessory panel. These units have the ability to add power, for charging personal electronics.

## CONSTRUCTION

Locker body and hinged doors

- Lockers are manufactured from 22 gauge cold rolled steel
- Hinged doors are manufactured from 18 gauge cold rolled steel and are lockable via a padlock hasp (padlock not included)
- Shelves feature grommets to add electric if needed
- Sizes are the same as, but not limited to, our traditional 4Post™ Shelving
- Pull out drawer locks separately from the rest of the cabinet
- 4Post™ leveling glides included for non-level floors
- 100% of all painted parts are powdercoated, the most environmentally friendly painting method available today.

Dimensions

- PLOC1 & 1-A            76”H x 18”W x 24”D
- Drawer dimensions 18”H x 18”W x 18”D
