

TEKSTAK™ II

Individually locking compartments with AC and USB charging

TekStak™ II features individually locking compartments for safe storage and charging of a wide array of personal items and equipment, such as electronic devices, wallets, keys, weapons, and other small items of value. TekStak II includes one AC outlet and two USB ports per compartment that can be used to charge laptops, cellphones, tablets, e-readers or other electronics while stored inside.

Features:

- 5, 8, or 10 compartments
- Device types: iPad, Chromebook, laptop, tablet, e-reader, cellphone
- Device size: up to 15"
- UL certified
- 10' power cord
- 90 door hinges prevent blocking compartment access
- Locking options: key, advanced key, hasp, or programmable digital lock
- Optional laminate top for additional workspace
- Ventilation keeps electronic devices from overheating

TekStak II is constructed of a heavy-duty steel with powder-coated finish and includes a Lifetime Product Warranty, 2 year Labor Warranty, and a limited 3 year Electrical Warranty.
