

# Ez2 Wall Closure Panel Installation Instructions

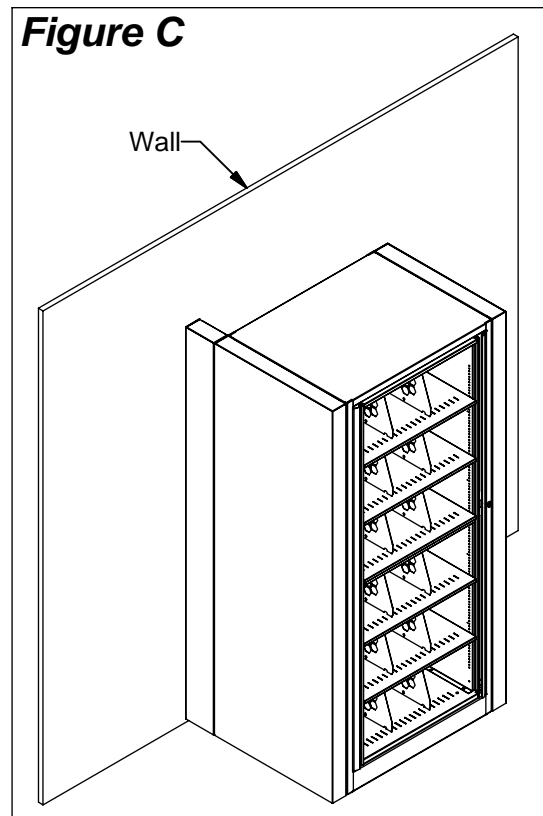

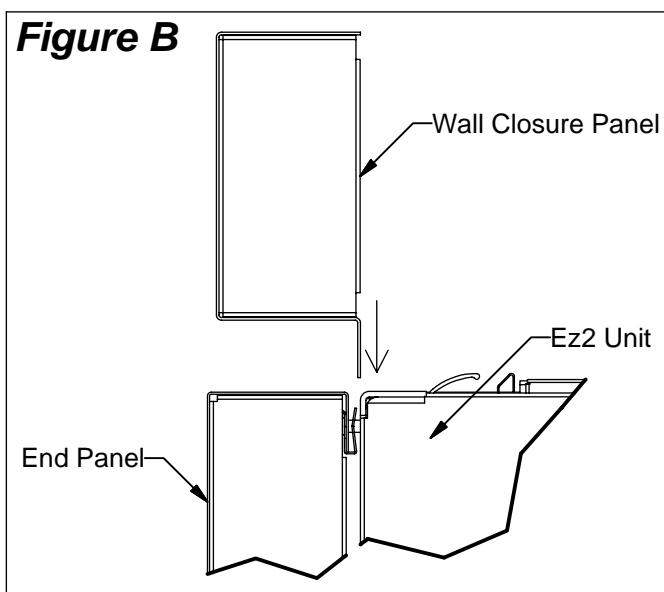

**Step 1:** Turn Rotating Section of Unit to allow access to End Panel Fasteners (*Figure A*). Using a Phillips Screwdriver, loosen the three End Panel Fasteners where Wall Closure Panel will be installed. Do not **REMOVE** these screws.

**Step 2:** Align slots on Wall Closure Panel with loosened screws between End Panel & Unit. Slide Wall Closure Panel between End Panel & Unit while keeping slots aligned with screws (*Figure B*).

**Step 3:** Tighten screws when Wall Closure Panel is in place. Reposition unit so that Wall Closure Panel is flush with wall as shown in *Figure C*.

# Ez2 Wall Closure Panel Installation Instructions

**NOTE: FOR BACK TO BACK UNITS.** Follow **Steps 1-3** & complete installation of Wall Closure Panels as represented below. If you have Units back to back, simply push them together.
