TambourDoor™

Space-saving security and storage

Need a place to secure important company documents? Don't replace your current stationary shelving, equip it with a TambourDoor™.

TambourDoor™ systems occupy a smaller footprint than traditional hinged doors because the door recesses completely into the unit. TambourDoors™ will open and close easily and lock securely for convenient—and HIPAA-compliant—storage.

Datum's TambourDoor™ units can be attached to any of our shelving lines, including those installed on MobileTrak® systems.

TambourDoors™ can also be installed on existing shelving without the need to take it apart. Datum can even paint the housing unit to match.

CUSTOMIZABLE, VERSATILE, DURABLE AND GUARANTEED

For more than 40 years, Datum® has been crafting state-of-the-art storage solutions to fit any need, design and budget. Engineered and constructed in the U.S.A. with high-quality and environmentally friendly materials and processes, Datum Storage Solutions® saves space, time and money.

Our customer service team and worldwide network of dealers will work with you to create a solution for your business, office, educational facility, archive or law enforcement agency that conforms to your current and future space and storage needs.
