

DATUM[®]
storage solutions

Stackable Shelving Systems:
ThinStak[®] and Vu-Stak[®]

ThinStak® Shelving

ThinStak® is a space-efficient storage solution that maximizes filing capacity by keeping documents organized and accessible in medical, educational or business office settings while utilizing a fraction of the floor space.

ThinStak® has the flexibility to store a variety of materials, including letter, legal, X-ray, mammogram, and Medi-File® folders, binders, books, and CD-sized media.

ThinStak® is highly configurable and can easily be expanded by adding additional tiers for increased storage space. When compared to a lateral filing cabinet, ThinStak® units can increase the amount of storage by more than 50% while occupying 27% less floor space.

This system is also designed to work with TrakSlider™ and MobileTrak® systems to create a high-density storage solution.

For additional information, visit www.datumstorage.com.

FEATURES

1. The **pre-punched top** ensures easy conversion to a TrakSlider® system or TambourDoor™
2. Shelves are available with fixed or movable **dividers** to keep files neatly organized and up-right.
3. A retractable **posting shelf** is available to provide a convenient work surface that easily retracts when not in use.
4. The **open shelf design** allows for fast and easy access.
5. Datum's **thin-profile shelves** maximize vertical space for increased storage efficiency.
6. Optional **spacers** allow each ThinStak® unit to maintain a uniform height when accessories are used.
7. All ThinStak® components are **powder coated** to ensure a durable, long-lasting finish.

ThinStak® Applications

ThinStak® Shelving Systems offer custom storage solutions for virtually any application.

Letter and Legal

Letter and legal tiers offer space savings and easy access to stored records. Tiers are available with fixed or movable dividers. Fixed dividers are designed specifically for document storage, while movable dividers are ideal for bulky storage such as oversized and expandable folders.

Multimedia

Use our CD storage tiers to store and organize CDs and DVDs.

Binder and Book

Book and binder tiers feature movable dividers to offer flexibility and easy retrieval of books, binders and manuals.

Mammogram, X-ray and MediFile®

Whether you're storing mammogram films, full-sized X-ray jackets or small-format patient charts, the open shelf design and divider options allow you to customize each ThinStak® unit for any application.

ThinStak® Accessories

TambourDoor™

Secure or conceal files and shelving with an easy-to-use, locking TambourDoor™.

Forms & Label Center

Create a convenient label or forms center, ideal for any mail room or label station.

Sizes

Datum offers more shelving width options than any other manufacturer. Choose from five different widths to maximize filing capacity.

End Panels & Tops

Laminate end panels and tops help create a sophisticated, custom look for your office or storage area.

Vu-Stak® Shelving

Datum's Vu-Stak® filing system provides the solution to your open-shelf filing needs, allowing the most efficient use of valuable floor space. For use in conjunction with color-coded side tab folders, all Vu-Stak® tiers come with fixed welded dividers and a sleek profile, making it an ideal choice for letter, legal or X-ray file storage.

Tiers can be configured up to six levels high for X-ray file jacket storage and up to eight levels high for letter and legal document storage. Whether slanted or straight, all Vu-Stak® tiers are easy to assemble and can be expanded or reconfigured at any time.

For additional information, visit www.datumstorage.com.

FEATURES

1. Vu-Stak® **tiers** are available in both **slanted and straight** styles to increase file recognition and lessen retrieval time no matter what your filing needs are.
2. Tiers are available in **3 widths**: 24", 36" and 48". Combine widths to maximize your storage options.
3. Datum's exclusive **fixed welded divider** creates a smooth surface for easy filing and protection against torn folders.
4. Ideal for **letter, legal and X-ray** file storage.
5. Shelving is **easy to assemble** and can be expanded or reconfigured at any time to fit your storage needs.
6. All Vu-Stak® components are **powder coated** to ensure a durable, long-lasting finish.

Additional Features (not pictured)

- Vu-Stak® posting shelves are available for both straight and slant tiers to provide a fully retractable, convenient work surface.
- Utilize spacers to create even-height shelving with an aesthetically pleasing look.

Slant Tiers

Vu-Stak® Slant Tiers' unique modular design combined with a 55° angled shelf result in increased file recognition and visibility for error-free filing and faster retrieval. Available in letter or legal depth, Slant Tiers save valuable floor space because they do not protrude as far as standard tier shelving. Slant Tiers can be combined with Datum's TrakSlider™ system for maximum filing efficiency.

Straight Tiers

Vu-Stak® Straight Tiers allow individual shelves to be stacked up to eight levels, creating custom solutions for unique storage needs. Stackable shelving allows for maximum use of floor space and additional shelves can be added at any time for greater expandability. Available in X-ray, letter and legal sizes, Vu-Stak® Straight Tiers can be combined with Datum's TrakSlider™ system to increase your options to meet your storage needs and budget.

Various Tier Sizes Available

All Vu-Stak® tiers are available in 3 widths: 24", 36" and 48". This versatile storage solution offers the flexibility to combine different widths to help maximize your storage area.

TrakSlider™ Systems

ThinStak® and Vu-Stak® units are designed to be used with TrakSlider™ Systems to create a modular storage solution that grows as capacity requirements increase. TrakSlider™ Systems can more than double storage capacity by converting stationary files into movable systems that require just a fraction of the original floor space.

Datum's unique design increases user efficiency by eliminating fixed aisles between shelves that can reduce valuable retrieval time. Simply start with stationary ThinStak® or Vu-Stak® units and add on as needed. The modular track allows for easy expansion from stationary units to a BiSlider, TriSlider, or QuadSlider unit. TrakSlider™ Systems track can also be expanded laterally for additional capacity as needed.

All Datum ThinStak® and Vu-Stak® tiers can be combined with TrakSlider™ Systems to improve storage capacity, access and retrieval of stored contents.

Stationary System
(Two SO36LT8 shown)
Storage Capacity: 500 LFI*
Footprint: 7 square feet

BiSlider System
(B632LT8 shown)
Storage Capacity: 1,400 LFI*
Footprint: 22 square feet

TriSlider System
(B632LT8 shown)
Storage Capacity: 1,960 LFI*
Footprint: 32 square feet

QuadSlider System
(Q632LT8 shown)
Storage Capacity: 2,520 LFI*
Footprint: 47 square feet

*Capacities shown are based on letter-sized folders for 8-high, 36" wide units. Actual filing inches are based on type of media, width, and height of ThinStak® units and available floor space. Contact your Datum representative for different configurations based on your storage needs and space availability.

For even greater capacity... MobileTrak®

For larger capacity applications, combine Datum's MobileTrak® and ThinStak® or Vu-Stak® tiers to reduce floor space requirements by up to 50%. Fixed shelves require additional aisles for access between units, MobileTrak5® eliminates all but one movable aisle by attaching shelving to heavy-duty rolling carriages.

ThinStak® and Vu-Stak® tiers are perfect for use in conjunction with Datum's MobileTrak® Systems. Their unique, low-profile shelves help to reduce the overall height of the MobileTrak® System which allows ceiling restrictions and fire code requirements to be addressed without sacrificing capacity. Contents stored on the top shelf are also more easily accessed.

CUSTOMIZABLE, VERSATILE, DURABLE AND GUARANTEED

For more than 40 years, Datum® has been crafting state-of-the-art storage solutions to fit any need, design and budget. Engineered and constructed in the U.S.A. with high-quality and environmentally friendly materials and processes, Datum Storage Solutions® saves space, time and money.

Our customer service team and worldwide network of dealers will work with you to create a solution for your business, office, educational facility, archive or law enforcement agency that conforms to your current and future space and storage needs.
